Transfer of Course/ Degree Credit to Other Institutions: The student should be aware that these degree programs may not transfer. The transfer of course/degree credit is determined by receiving institution.

California: This institution is a private institution approved to operate by the California Bureau for Private Postsecondary Education. Approval to operate means the institution is compliant with the minimum standards contained in the California Private Postsecondary Education Act of 2009 (as amended) and Division 7.5 of Title 5 of the California Code of Regulations.

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (1-888-370-7589) or by completing a complaint form, which can be obtained on the bureau's Internet Web site (www.bppe.ca.gov).

The Commonwealth of Virginia defines physical presence as operating a facility in Virginia and/or the mechanism by which instruction is initiated (server) is located in Virginia. This ineligibility would not prevent or prohibit an out-of-state institution from offering postsecondary instruction via distance learning to residents of the Commonwealth of Virginia. Those students, however, would not benefit from protections available to students attending institutions that are certified by the State Council of Higher Education for Virginia (SCHEV). These protections are listed on the SCHEV website: <http://www.schev.edu/highered/pope/Students.asp>.

Washington: TUI is exempt from licensure since it does not maintain physical facilities or offer instructional programs on the ground within the state.

West Virginia: The original authorization of Trident University International was based on the interpretation that employing part-time instructors in the state constituted physical presence. West Virginia Higher Education Policy Commission and the Community and Technical College System have altered their interpretation. Under current policy, if the instructor has no direct contact with students in the state, physical presence is not triggered. Based on this new interpretation, TUI is not required to obtain authorization for online offerings.

Wisconsin: TUI has been approved to do business in Wisconsin as a private school, subject to the provisions of Wisconsin Statutes 38.50 and all administrative rules adopted pursuant to the statutes. Approval includes only those courses of instruction and those teaching locations which are specifically approved by the Board. The approval expires December 31, 2018.

Wyoming: TUI maintains a Private School Registration from the Wyoming Department of Education (Certificate number 14-135.30). Trident meets the minimum standards for registration pursuant to the Private Schools Licensing Act, WYO. STAT. 21-2-401 et. Seq.
