

College of Health & Human Services

Providing students high-quality Bachelors, Masters, and Ph.D. programs, the College of Health and Human Services fulfills its mission to develop competent, ethical, caring professionals, and leaders who are committed to improving the health and well-being of the populations they serve.

BACHELOR OF SCIENCE IN HEALTH SCIENCES

The Bachelor of Science in Health Sciences (BSHS) program provides a firm foundation in the health sciences to prepare graduates for entry and mid-level positions in public health and health care management, or to pursue graduate education in a health-related field.

BSHS Concentrations

- Health Care Management
- Public Health
- Public Health—Environmental and Occupational Health and Safety
- Public Health—Health Care Administration
- Public Health—Health Education

BACHELOR OF SCIENCE IN HOMELAND SECURITY

The Bachelor of Science in Homeland Security (BSHLS) degree program is sequentially constructed to correspond to the “four pillars” of the National Preparedness Goal (2011) and the Missions of the Strategic Plan of the Department of Homeland Security (DHS) (2012). This coverage format will ensure that all essential areas are addressed so that learners will be assured fundamental coverage of the Homeland Security scope of responsibilities.

BSHLS Concentrations

- Cybersecurity
- Leadership

MASTER OF SCIENCE IN EMERGENCY & DISASTER MANAGEMENT

The Master of Science in Emergency & Disaster Management (MSEDM) is designed for both military and civilian students with experience responding to national and global humanitarian crises, terrorist-based events and natural disasters.

MSEDM Concentrations

- Logistics

Graduate Certificates

- Emergency and Disaster Management
- Emergency and Disaster Management -Logistics

“Our interdisciplinary program offers topics at the forefront taught by leading faculty and experts in the field. In this program, you will develop as a researcher and be educated on topics related to health equity, social determinants of health, public health, policy, and global health, all of which impacts health outcomes in local and global communities.”

~ Dr. Mickey Shachar,

Dean for the College of Health & Human Services

MASTER OF SCIENCE IN HEALTH ADMINISTRATION

The Master of Science in Health Administration (MSHA) degree caters to real world practical needs and focuses on implementing the knowledge and skills needed for effective administrative leadership roles in organizations throughout the complex health care ecosystem.

MSHA Concentrations

- Conflict Resolution Management
- Health Care Quality Assurance
- Health Informatics
- Human Resource Management

Graduate Certificates

- Conflict Resolution Management
- Health Care Quality Assurance
- Health Informatics

DUAL DEGREE PROGRAM: MASTER OF SCIENCE IN HEALTH ADMINISTRATION (MSHA) & MASTER OF BUSINESS ADMINISTRATION (MBA)

MASTER OF SCIENCE IN HEALTH SCIENCES

The Master of Science in Health Sciences (MSHS) degree program prepares students for successful careers as managers or researchers in the fields of environmental and occupational health and safety, global health security, health education, or public health.

MSHS Concentrations

- Environmental and Occupational Health and Safety
- Global Health Security
- Health Education
- Public Health

Graduate Certificate

- Health Education

MASTER OF SCIENCE IN HOMELAND SECURITY

The Master of Science in Homeland Security (MSHLS) degree program is designed for both military and civilian students with experience responding to domestic crises, terrorist-based events, and natural disasters. The MSHLS degree program courses closely align with Department of Homeland Security (DHS) mission objectives and are appropriately sequenced to correspond to before-, during-, and after-a-disaster episodes on American soil.

MSHLS Concentrations

- Cybersecurity
- Leadership

Graduate Certificate

- Homeland Security

DOCTOR OF PHILOSOPHY IN HEALTH SCIENCES

Trident University's Ph.D. in Health Sciences (Ph.D. HS) degree programs provides students with the knowledge and skills for conducting research, education, and management careers in government. We emphasize research-based critical thinking, analytical, and problem solving skills, legal and ethical issues in the health field from Health Care Administration to Global Health.

Ph.D. HS Concentrations

- Global Health
- Health Policy and Administration
- Health Education
- Public Health

Graduate Certificates

- Public Health
