

### Authorization to Close File Form

If, after reasonable efforts, an undergraduate student is unable to obtain and deliver to Trident all official transcripts of prior educational credits prior to the conclusion of the second consecutive session, the student may submit this form for consideration. Submission and approval of this form allows the University to make an admission decision and finalize the student’s degree plan without potential transfer credits from the previously attended schools designated on the form.

This form does not apply to high school verification documentation; students may only use this form for postsecondary transcripts.

Students must consult with their Student Success Advocate prior to completing and submitting this form. Completed forms may be returned to your Student Success Advisor. Allow 3-5 business days for processing.

- You have made all reasonable efforts to submit all official transcripts.
- You have completed your first session.
- You have confirmed with your advisor that you can meet Satisfactory Academic Progress within your first evaluation period.
- You are an undergraduate, degree seeking student.
